

## Student Facebook & Instagram Registry Form

While technology has benefits, it may also lead students into many pitfalls. Students may participate in social networking like Facebook; however, it is wise to monitor such activity. Every student that has or intends to open a Facebook or Instagram account must complete this form. The student's parent(s) must also sign this form in agreement to monitor the student's Facebook and Instagram page.

Please list your Facebook and Instagram User Name or Email for every active account:

---

---

---

### Student agrees to...

- Post only that which honors the Lord
- Block any user, application, and game that does not honor the Lord
- Allow the school administration to view content
- Provide password if necessary to view content
